The search for Antonio Cedroni, the Italian who is alleged to have fired a 32-caliber revolver at Leo Spinelli on North Main street Saturday evening, the bullet of which grazed the head of J. Christoffero of Montpelier, a by-stander, still continues. Precaution has been taken by the local authorities to prevent his escape to distant parts. Several important clues were uncovered yesterday.

Rutland will entertain nearly 150 delegates when the grand lodge of the Vermont Knights of Pythias convenes there Wednesday and Thursday of this week. Delegates and grand lodge officers from all parts of the state will be present as well as grand lodge officers from other states. From Barre nine men will leave sometime to-morrow morning by automobile for the Marble City. They are: East Grand Chancellor C. M. Willey, Grand Keeper of Records and Seal F. E. Robinson, Frank Nichols, A. E. Campbell, Herman Campbell, W. W. Parry, W. A. Drew, W. H. Duthie and Homer C. Ladd.

Miss Elizabeth Shannon, a niece of Mrs. Sarah Bradbury of Washington street, who has been her guest for a week, left yesterday. Miss Shannon, who is employed in the Canadian Pacific railway offices in Sherbrooke, P. Q., was starting on a vacation trip to New York at the expense of the railway company, having a free pass to that city. She went from here to Wells River, where she was to be joined by two other young women from the same office, traveling in the same manner by the courtesy of their employers. Mrs. C. H. Brown of Reading, Mass., has also been a guest for a week at the Bradbury home and Miss Ruby Bradbury, a teacher in East Calais, was at her home over the week end.

A cordial invitation is extended to the general public to hear Mrs. J. P. Cochran tell of her experiences in Persia at the Presbyterian church this evening. Mrs. Cochran has been in Urumia, Persia, for the last 10 years and spent the entire war period there working in a hospital which her husband built. She was one of the most interesting and thrilling speakers before the general assembly at St. Louis this spring. She has a wealth of material upon which to talk and is a very forceful speaker in presenting her facts. There is no admission and it is to be hoped that a large number will take advantage of such a rare treat as this. Mrs. Cochran addressed a large gathering in Granville last evening. She is accompanied by Mrs. F. L. Ladd of West Barre and is stopping at Hotel Barre. Interesting letters concerning her work can be read in the September number of the Atlantic Monthly.

A little shop on North Main street which outwardly bears appearance of the activities within, hides from view the handiwork of Prof. Carlo Abate, the Italian modeller and sculptor. It was he who, with but a few hours at his disposal, constructed almost all the plaster figures which have adorned the victory arch ever since its triumphant dedication last July 4. The work which Prof. Abate produced then was left partly unfinished because of the emergency notices given him to prepare the statues. To-day in his workshop, one may see a good sample of his artistic workmanship in the plaster model of an overseas soldier, garbed in the regulation army overcoat, overseas cap, spirals and heavy shoes, and standing at ease with an army rifle. All these various articles on the statue are modelled true to form. The statue is to be shipped to the W. N. Flynt Granite Co. in Monson, Mass., who await its arrival to begin duplicating it in granite for a soldiers' memorial. This statue is seven feet four inches high from the six-inch pedestal; and to construct this huge figure perfectly Prof. Abate worked continually for a month. At present he is completing the model for the last wreath to be cut in granite on the Ohio victory shaft, which is under the hammer at Jones Brothers' plant.

Notice to the Public.

Red and white signs appearing on poles between Barre and Montpelier, beginning at the intersection of the East Montpelier road, have aroused considerable curiosity. These are markers for the Theodore Roosevelt international highway, to extend from Portland, Me., to Portland, Ore., and markers of three-inch white stripes above and below a 12-inch red band, with the letters "T. R." on the red, above the course of the road, which follows the main highway to Burlington, crossing the eastern part of the state by way of Plainfield and East Montpelier.

About 100 of their countrymen from the Italian colony assembled at the Central Vermont station last night at midnight to bid farewell to Serafino Ceruti and John Molinari, two Italians returning to their fatherland for an indefinite stay. Both men have lived and worked in this city ever since coming to America 10 years ago, and were well known among the Italian population. Their destination is Bolganiano, Italy. With them will sail from New York two other residents of this city, Gilda Seacchi, going to Canton Ticino, Switzerland, and Giuseppe Berte, going to Parma, Italy.

The New England Tel. & Tel. Co. is making an important change in six-party residence lines in this city which will operate to improve the service on these lines. Heretofore all subscribers on such lines have been obliged to hear the rings for all subscribers of the line. The new arrangement will "divide" the line so that only half the rings will be heard; with six subscribers on the line each subscriber will hear only three different rings, his and that of two other subscribers instead of the rings for all six subscribers on any line. In order to do this, letters instead of figures are used for ring designations. For example, for the present rings of 1, 2, 3, 4, 11 and 12, there are substituted the letters, W, R, Y, M, J, X. The letters W and M mean one ring; R and J two rings and Y and X three rings, respectively. Since there are between 500 and 600 changes to be made in wiring, there will be some unavoidable confusion during the time of making such changes, which will require three or four days to complete. The delivery of the new directories will be made, however, at this time, which will contain the new numbers and every precaution will be taken to have the smallest amount of interference with the service of the subscribers affected.

WASHINGTON  
The latest Red Cross bulletin gives a report of conditions abroad, as seen by Miss L. H. Newell, who was sent to study the needs of France and Serbia, that the problem might be rightly understood and met by Red Cross workers in this country. She says: "There will be great need of clothing overseas this winter. The principal relief given by the Red Cross abroad is medical, but in order to complete this service, clothing will have to be distributed. We hope branches will take up the work." The Washington branch has both sewing and knitting on hand and it is hoped volunteers will call for the work, which can be procured of Miss Olive Calf. The annual election of officers occurs on Oct. 8.

## Don't "Follow the Leader"

The "leader" is an ancient artifice employed by the so-called "economy stores" to create the impression that their prices are low.

They sell an article of standard brand several cents cheaper than it can be bought elsewhere—oftentimes cheaper than the dealer himself can buy it.

Now, if these stores carried out this policy on all their goods, they would be doing business at an actual loss. Why, then, do they make this sacrifice on some standard article? Because they expect to get it back with good interest on other and unidentified goods which the uninitiated think they are getting cheap because the "leader" was cheap!

Real economy is in dealing where you have absolute confidence in the grocer.

We are in a position to serve you intelligently. We make it our business to test everything we recommend.

When RYZON was introduced, we knew that it was the product of the General Chemical Company, a great chemical organization, and must be worth trying. We did, and now we know why they call it "The Perfect Baking Powder."

We consider the RYZON Baking Book of untold value. It was the first baking powder manual to introduce level measurements. That's one reason why we never have any complaints from RYZON—women can't help but use it accurately, and they have uniformly better baking. Ask about these 200 recipes when you come in the store—you can get them for 30c.
